Reviewer's report

Title: The identification of a spontaneous 47,XX,+21/46,XY chimeric fetus with male genitalia

Version: 3 Date: 14 August 2012

Reviewer: Michele Ramsay

Reviewer's report:

This is a rereview. I am satisfied with the changes made.

Minor essential revisions - not for publication in comments:

Title: genitalia not genitali

Discussion second paragraph:

Avoid use of parthenogenetic chimera (twice in second paragraph)

Make capital "I" from "in vitro" small

Add "be" - tetragametic chirmeras can also be fused from"

Third paragraph:

Remove "male and female" from ...may range from normal to ambiguous external genitalia.....

Remove "who" from Those with ambiguous genitalia...

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
