Reviewer's report

Title: Newborn screening for citrin deficiency and carnitine uptake defect using second-tier molecular tests

Version: 3 Date: 9 November 2012

Reviewer: Nelson L Tang

Reviewer's report:

This revised manuscript is good.
Just one minor comment to revise the last sentence ..."it is also urgent to find a method to further improve these screening tests." should read "there is an urgent need to find a method to further improve these screening tests."

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
