Reviewer's report

Title: Contribution of the PALB2 c.2323C>T [p. Q775X] founder mutation in well-defined breast and/or ovarian cancer families and unselected ovarian cancer cases of French Canadian descent

Version: 3 Date: 3 December 2012

Reviewer: Claudia Vitoria V De Moura Gallo

Reviewer's report:

I consider the study of interest to be published in BMC medical genetics. The authors have reviewed the manuscript and the minor points to be corrected were altered.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
