Reviewer's report

Title: Early onset of Chanarin-Dorfman syndrome with severe liver involvement in a patient with a complex rearrangement of ABHD5 promoter

Version: 2  Date: 14 November 2013

Reviewer: Arvind Ahuja

Reviewer's report:

Dear Authors,
You are reporting a large deletion encompassing the promoter region of ABHD5 gene in a case of Chanarin-Dorfman syndrome (CDS) and claim that this mutation has not been reported earlier.
The manuscript is well written and I will suggest only few changes to incorporate, as mentioned below-

Major revision:
1. The histology micro-photographs are not up-to the mark and should be replaced as suggested in the attachment.

Minor essential revisions:
There are few spelling mistakes/ word inclusions suggested in the attachment.

All the Best,
Arvind Ahuja

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
