Reviewer’s report

Title: The novel p.Cys65Tyr mutation in NR5A1 gene in three 46,XY siblings with normal testosterone levels and their mother with primary ovarian insufficiency

Version: 3
Date: 13 December 2013

Reviewer: John Achermann

Reviewer’s report:

Minor issues not for publication

The written language is much, much better

there are several minor typos I noticed:

background paragraph 3 - I think there is an extra "have" in the line "with infertility have [15-19]"

try to use "reported" instead of "referred"

discussion - first paragraph "presented with"; fourth paragraph "Taken together" not "taking together"

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
