Reviewer's report

Title: The impact of population heterogeneity on risk estimation in genetic counseling

Version: 2 Date: 11 February 2004

Reviewer: Christine Fischer

Reviewer's report:

General
The authors added discussion of papers which covered similar problems. Therefore they met my first comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
