Reviewer's report

**Title:** Cardiac Conduction Abnormalities and Congenital Immunodeficiency in a Child with Kabuki Syndrome: Case Report.

**Version:** 1  **Date:** 29 December 2004

**Reviewer:** Helga Toriello

**Reviewer's report:**

General good conclusions

-------------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached): photo of the child documenting the phenotype, and thus basis for diagnosis is mandatory

-------------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------------------------------------------------------------

**What next?:** Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No

**Declaration of competing interests:**

I declare that I have no competing interests
