Reviewer’s report

Title: The SDH Mutation Database. An online resource for succinate dehydrogenase sequence variants involved in pheochromocytoma and paraganglioma.

Version: 5 Date: 4 October 2005

Reviewer: Anne-Paule Gimenez-Roqueplo

Reviewer’s report:

The author’s response to reviews, the corrections in the SDH database and in the article are all satisfying. There is one typographic error at the end of the paragraph entitled Utility: “given the number of SDHB and SDHB mutations…” should be corrected in “given the number of SDHB and SDHD mutations”.

I agree with the publication

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
