Reviewer's report

Title: No role for Estrogen Receptor 1 Gene Intron 1 Pvu II and Exon 4 C325G Polymorphisms in Migraine Susceptibility

Version: 4 Date: 27 January 2006

Reviewer: Amanda Shearman

Reviewer's report:

General
The authors have revised the manuscript appropriately.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

As described in my initial review of the manuscript.
