Reviewer’s report

Title: Novel Unbalanced 16p;13q Translocation in a Patient with Factor VII Deficiency and Developmental Abnormalities: Case Report

Version: 3 Date: 21 October 2005

Reviewer: Felicitas Lacbawan

Reviewer’s report:

General

----------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

1) On abstract, under the heading Case presentation, first statement needs to be in a sentence.
2) On first sentence under Conclusions, use “cytogenetic” instead of “cytogenetics”.
3) A wrap up paragraph is needed at the end of the Conclusion to emphasize the important findings and pertinent lessons from this case.

----------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
