Reviewer’s report

Title: On the Wegener granulomatosis associated region on chromosome 6p21.3

Version: 4 Date: 31 January 2006

Reviewer: Bobby Koeleman

Reviewer’s report:

General

The authors responded well to my comments. No further revision needed.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
