Reviewer's report

Title: No association between polymorphisms in the brain-derived neurotrophic factor gene and age at onset in Huntington disease

Version: 3 Date: 25 October 2006

Reviewer: Russell Snell

Reviewer’s report:

General
I am happy with the paper now and think it should be published.

----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
