Reviewer's report

Title: The effect of ABCA1 gene polymorphisms on ischaemic stroke risk and relationship with lipid profile

Version: 2  Date: 2 February 2007

Reviewer: david evans

Reviewer's report:

General
The manuscript in its present form is ready for publication. Thank you for providing the lipid data and power calculations. I do not feel it necessary to include them in the final manuscript.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare I have no competing interests.
