Reviewer’s report

Title: TCF7L2 variant genotypes and type 2 diabetes risk in Brazil: significant association, but not a significant tool for risk stratification in the general population

Version: 2 Date: 21 October 2008

Reviewer: Anke Hinney

Reviewer's report:

The manuscript improved, so that I have no further hints for revisions.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
