Reviewer's report

Title: Lack of association between PKLR rs3020781 and NOS1AP rs7538490 and type 2 diabetes, overweight, obesity and related metabolic phenotypes in a Danish large-scale study: case-control studies and analyses of quantitative traits

Version: 4 Date: 31 July 2008

Reviewer: Jana van Vliet-Ostaptchouk

Reviewer's report:

The authors have adequately addressed all my comments from the first review. This and also the response to the other reviewers has improved the manuscript to acceptable state.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
