Reviewer's report

Title: No evidence for association between BMI and 10 candidate genes at ages 4, 7 and 10 in a large UK sample of twins

Version: 3 Date: 22 January 2008

Reviewer: Harold Snieder

Reviewer's report:

The authors have adequately addressed my concerns.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
