Reviewer’s report

Title: Association between LRP5 polymorphism and bone mineral density: a Bayesian meta-analysis

Version: 1 Date: 21 March 2008

Reviewer: Young Ho Lee

Reviewer’s report:

Minor revisions.

1. In Table 3, authors should provide p-values for WMD.

2. It is hard to understand Figure 4. Authors needs to explain Figure 4 in detail for readers.

3. It is good to explain the difference between a Bayesian meta-analysis and a conventional meta-analysis.

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
