Reviewer’s report

Title: Association between variations in the TLR4 gene and incident type 2 diabetes is modified by the ratio of total cholesterol to HDL-cholesterol

Version: 2 Date: 14 January 2008

Reviewer: Colin Palmer

Reviewer’s report:

The new analysis of the three way interaction fully justifies the stratified analysis

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
