Reviewer's report

Title: A review of unplanned dialysis initiation: an opportunity to improve clinical and socioeconomic outcomes

Version: 1 Date: 25 June 2009

Reviewer: Nasrollah Ghahramani

Reviewer's report:

The paper by Dr. Mendelssohn and colleagues is a very comprehensive review of an extremely important topic: unplanned dialysis initiation and its socioeconomic implications. The methodology is clear and results are well-presented. The discussion and conclusions are pertinent to the results.

Discretionary revision: The discussion section lacks recommendations to deal with the problems identified by the review.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
