Reviewer’s report

Title: MDRD is not enough for detection and awareness of chronic kidney disease in an Italian regional hospital

Version: 1 Date: 16 April 2009

Reviewer: Yon Su Kim

Reviewer’s report:

Although it is a descriptive study, Dr. Giuseppe Quintaliani and colleagues work is worth while to be published. But there are several errors to be corrected.
1. In table III, it is better to describe % in parenthesis according to DOQI class.
2. In table IV, number of hospitalization in medical part is wrong. Please confirm and correct it.
3. Too many references. It can be concised.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
