Reviewer's report

Title: Interventions for renal vasculitis in adults. A systematic review.

Version: 4 Date: 9 April 2010

Reviewer: Catherine Meads

Reviewer's report:

Major compulsory revisions.
You need to provide a draft WITHOUT track changes.
You need to provide a draft WITHOUT a double set of figures.
Your abstract needs to have a conclusion that concludes. The current version is rather vague.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
