Reviewer’s report

Title: Simultaneous resolution of focal segmental glomerulosclerosis associated with chronic lymphocytic leukaemia treated with fludarabine, cyclophosphamide and rituximab

Version: 3 Date: 10 June 2011

Reviewer: Stephen Rifkin

Reviewer’s report:

An interesting case report demonstrating an unusual disease association and clinical response to therapy of the primary disease. As there is no post-treatment renal biopsy to demonstrate histologic resolution, I would suggest changing the title to reflect this. Perhaps, Simultaneous clinical resolution ....or simultaneous improvement of ...
