Title: Decision making around living and deceased donor kidney transplantation: a qualitative study exploring the importance of expected relationship changes

Version: 2 Date: 6 June 2012

Reviewer: Allison Tong

Reviewer’s report:

I thank the authors for addressing the comments and for providing further clarification. It is mentioned that two observers were present during the focus groups. The authors may wish to include further information about what observational data were collected, how it was analyzed and what the findings were.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
