Reviewer's report

**Title:** Protective effect of Erythropoietin on renal injury induced by four weeks exhaustive exercise of the rats

**Version:** 3 **Date:** 16 February 2013

**Reviewer:** Ruiming Rong

**Reviewer's report:**

Thanks for the author's response. The questions have been answered, but I still have some comments.

**Minor Essential Revisions**

1. I still found some grammar mistakes in this article, for instance, Page4 P2 "(slope gradient 0%, (slope gradient 0%, ZH-PT-1 Treadmill", repeated sentence.

2. Page7 P1 Line5, "n=20" should be deleted.

Please carefully revise your manuscript with editor's help before publication.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.
