Reviewer’s report

Title: Predictors of Renal Recovery In Patients With Pre-Orthotopic Liver Transplant (OLT) Renal Dysfunction.

Version: 4 Date: 9 April 2013

Reviewer: Arianeb Mehrabi

Reviewer’s report:

The authors have revised the manuscript considering most of our mentioned points. The manuscript is now summarized, and the study can easily be followed specially in the discussion.

Since the study is supposed to be published in 2013 and the results are presented only until 2005, it is necessary to mention the reason of this gap in the manuscript.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
