Reviewer's report

Title: An unusual case of glomerulonephritis in a patient with Non-Hodgkin Mucosal Associated Lymphoid Tissue (MALT) B-cell lymphoma

Version: 1 Date: 21 January 2013

Reviewer: José António Lopes

Reviewer's report:

Yeo et al reported a case of severe diffuse proliferative and exudative lupus-like glomerulonephritis associated with recurrent non-Hodgkin MALT B-cell lymphoma. This is original and the case is clearly presented and well discussed. In my opinion, therefore, the article is suitable for publication as it is.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
