Reviewer's report

Title: Complete Staghorn Calculus in Polycystic Kidney Disease: Infection is still the cause

Version: 1 Date: 22 June 2013

Reviewer: Che-Yi Chou

Reviewer's report:

This article reported a renal staghorn stone developed after 3 years of repeatedly urinary track infection. This article discussed the recently findings regarding metabolic associated renal calculus in polycystic kidney disease patients. The case is interesting to the clinicians of nephrology and should be accepted for publication.
