Reviewer's report

Title: Complete Staghorn Calculus in Polycystic Kidney Disease: Infection is still the cause

Version: 1 Date: 22 June 2013

Reviewer: Phillip Mucksavage

Reviewer's report:

Major Compulsory Revisions

the case report is well written, but addresses none of the treatment options for this patient. While she decided to do nothing, she is at high risk of ESRD and recurrent infections/symptoms due to the ADPKD and struvite stone. Please include a section on treatment options in this patient and how they should or could be done.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
