Reviewer’s report

Title: Increased plasma sVCAM-1 is associated with severity in IgA nephropathy

Version: 2 Date: 15 January 2013

Reviewer: Karen Molyneux

Reviewer’s report:

The authors have addressed my initial concerns and I think the paper should be published as it is now.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests
