Reviewer's report

**Title:** Relationship between Sclerostin and Cardiovascular Calcification in Hemodialysis Patients: A cross-sectional study

**Version:** 2  **Date:** 31 August 2013

**Reviewer:** Stephen Sozio

**Reviewer's report:**

The authors have responded to my primary and secondary concerns.

Discretionary revisions:

1) I appreciate the description of the other 2 populations. A flow diagram of the MDCT participants using the STROBE guidelines would still be helpful, to allow for generalizability of the results to other populations of HD patients.

Thank you for allowing me to re-review this manuscript.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests
