Reviewer’s report

Title: Delay in renal replacement therapy initiation increases mortality in patients developing acute kidney injury after liver transplantation

Version: 2 Date: 4 October 2012

Reviewer: Steven Weisbord

Reviewer’s report:

The authors have attempted to address my primary concerns and the revised manuscript is more clear.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
