Reviewer’s report

Title: Prevalence and correlates of depression among chronic kidney disease patients in Taiwan

Version: 3 Date: 19 December 2012

Reviewer: Maurizio Bossola

Reviewer’s report:

The authors have tried to answers to my questions. It remains that:
- there are not data about the inflammatory status of this patient and this is a major bias;
- the study has the big limitation that the results cannot be generalized

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
