Reviewer’s report

Title: Renal function, uraemia and early arteriovenous fistula failure

Version: 2
Date: 31 August 2014

Reviewer: Thakor G Patel

Reviewer’s report:

This is a very good article and the question posed is appropriate. AVF needs a lot of studies at basic level. The authors have made a very good attempt to look at the vascular cell proliferation in relation to the level of uremia. The number of patients are adequate. The data appears to be sound.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
