Reviewer's report

Title: The impact of patient preference on dialysis modality and hemodialysis vascular access

Version: 2 Date: 15 September 2013

Reviewer: Dina ABDELLATIF

Reviewer's report:

Major compulsory revision
It should be clear in the discussion that more than 60% of those who intended to have PD were not able to have because of medical reason as shown in the table.

Minor revisions
What about those who initially chose HHD .. Is there a table for the reasons they shifted to facility HD

Discretionary revision
The remaining 38% of PD, i was waiting to read more details on why they changed their minds

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
