Version: 1 Date: 8 Jan 2002

Reviewer: Prof Giuliana Lama

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept after discretionary revisions

1. The conclusions drawn adequately supported by the data shown.

2. Is better to calculate GFR after ACE I treatment.

3. The manuscript adhere to the relevant standards for reporting and data deposition.

Competing interests:
