Reviewer's report

Title: Hypothyroidism attenuates protein tyrosine nitration, oxidative stress and renal damage induced by ischemia and reperfusion: effect unrelated to antioxidant enzymes activity

Version: 2 Date: 26 September 2005

Reviewer: Prabal K Chatterjee

Reviewer's report:

General

The authors have responded to my questions and made the requested changes to my satisfaction. The manuscript is significantly improved and I have no further queries.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

None

What next?: Accept without revision
