Reviewer's report

Title: The IgA nephropathy Biobank. An important starting point for the genetic dissection of a complex trait

Version: 2 Date: 26 October 2005

Reviewer: Masanobu Miyazaki

Reviewer's report:

General
The authors replied to the reviewer's comments and they described the establishment of a biobank of IgAN in Europe.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
