Reviewer's report

Title: Surgical revascularization versus amputation for peripheral vascular disease in dialysis patients: a cohort study

Version: 4 Date: 2 February 2005

Reviewer: Paul Eggers

Reviewer's report:

General
The changes made are acceptable.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
