Reviewer's report

Title: Progressive neurological disease induced by tacrolimus in a renal transplant recipient: Case report.

Version: 2 Date: 16 February 2006
Reviewer: MC Nassogne

Reviewer’s report:

General
Thank you to the authors for all the corrections. I have only one question : are you sure that your picture is T1-MRI and T2.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

No
