Reviewer’s report

Title: The effect of gender, age, and geographical location on the incidence and prevalence of renal replacement therapy in Wales

Version: 2 Date: 8 September 2006

Reviewer: Fabio Malberti

Reviewer’s report:

General

The Authors have modified and improved the paper. The methodologic aspects regarding the source and the completeness of the data collected have been clarified.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
