Is it known that diabetes have a better response to EPO. This is new to me and interesting and merits a comment
Page 6 Is it known that once a week EPO has a better response that the same total dose given 3 times a week. This is new to me and worth a discussion
page 8
Was the increase in Hb in the iron deficiency group related to the use of iron?
That the EPO/HB ratio is associated with increased mortality and functional iron deficiency is interesting and has been found in the literature and merits more comment.
