Reviewer’s report

Title: Ophthalmodynamometry for ICP prediction and pilot field test on Mt. Everest

Version: 5 Date: 1 October 2010

Reviewer: Farzaneh Sorond

Reviewer’s report:

I think that the authors have adequately addressed my concerns. I do still think that the 2 topics should be separated, but this is more of a stylistic concerns rather than a scientific one.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interests
