Reviewer's report

Title: Congenital Abnormalities and Multiple Sclerosis

Version: 2 Date: 20 October 2010

Reviewer: stefano sotgiu

Reviewer's report:

Minor essential revision:

As I am still convinced that the missing information (abortion, stillbirth etc.) is crucial I would suggest that the word "preliminary" should appear somewhere in the main text (e.g. Conclusion paragraph) and in the Abstract.

2. In the Abstract the authors should make clear to the reader that the information in object is missing.

Best regards
Stefano Sotgiu

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
