**Reviewer's report:**

This is a well written paper.

Only a minor point:
1. Page 8 Lines 16-17: I cannot understand the sentence “Disease duration … in our cohort.” Were UPDRS score and Hoehn and Yahr stage significantly related to under-nutrition?

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
