Reviewer's report

Title: Progressive multifocal leucoencephalopathy in an immunocompetent patient with favourable outcome. A case report.

Version: 1 Date: 4 December 2009

Reviewer: Richard McLachlan

Reviewer's report:

This is a report of a successful response to cidofovir in a case of PML. Other case reports of successful and unsuccessful treatment with the drug are referenced.

Minor Essential Revisions

1. methylprednisolone and ceftriaxone are misspelled in the abstract and case report
2. Fig 5 is superfluous

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
