Reviewer's report

Title: Visual Neglect in Posterior Cortical Atrophy

Version: 2 Date: 29 April 2010

Reviewer: David Wilkinson

Reviewer's report:

Only one discretionary revision remains:
To reinforce their argument that the relatively high incidence of right-sided neglect may reflect bilateral brain damage, the authors may wish to say that independent and unbiased visual inspection of patients’ scans confirmed this pattern.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
