Reviewer's report

**Title:** Two common nonsynonymous paraoxonase 1 (PON1) polymorphisms are not related with the risk for brain astrocytoma and meningioma

**Version:** 2  **Date:** 21 April 2010

**Reviewer:** Luis Quiñones

**Reviewer's report:**

I have re-reviewed the manuscript entitled “Paraoxonase 1(PON1) polymorphisms are not related with the risk for brain astrocytoma and meningioma”.

Due to carefully revision of English redaction by the authors and extensive changes in order to answer comments and directions given by referees the new version of the manuscript have improved considerably and my doubts have been completely overcame. Minor and Major compulsory revisions have been corrected. Therefore I have no additional comments.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
