Reviewer's report

Title: Diagnostic indices for vertiginous diseases

Version: 1 Date: 9 July 2010

Reviewer: Guangwei Zhou

Reviewer's report:

Minor Essential Revisions:

1. Please use terminology or abbreviation consistently throughout the manuscript, such as benign paroxysmal positional vertigo (BPPV).
2. Please justify why the short questionnaire is adequate for screening.
3. It's arguable that the number of the patients in each group is not large enough for statistical analysis to make any conclusive outcomes. Please consider adding more patients during revision.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests.
