**Title:** Controversies in Neurology: why Monoamine Oxidase B Inhibitors Could Be A Good Choice for the Early Treatment of Parkinson's Disease

**Version:** 2  **Date:** 26 July 2011

**Reviewer:** Oren S Cohen

**Reviewer's report:**

I read the revised manuscript and the detailed correspondence of the authors and I the changes that were made in the manuscript address my concerns. The manuscript is much improved now and I recommend acceptance without further revision.
