Reviewer's report

**Title:** Validation of the Spanish version of the Multiple Sclerosis International Quality Of Life (MusiQoL) questionnaire

**Version:** 2  **Date:** 13 September 2011

**Reviewer:** Francesco Patti

**Reviewer's report:**

I am partly satisfied with the changes

The authors continue to not use properly references; they did not add any limitation in the whole text regarding the use of MMSE; they introduce the clinical judgment to assess cognitive impairment; they did not perform any comparison between FAMS and Spanish version of MusiQoL

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

I received fee for speaking and advisory board member activities by Bayer Schering, Biogen Idec, Merck Serono, and Novartis. I also received fee for speaking activities by Sanofi Aventis and Dompè
